DETAILED ACTION

The examiner noticed that the previous election of species requirement erred in indicating that claim number 1 was generic to all the species listed in the election requirement. The examiner also noticed, after reviewing the claims, that only claims 1-3, 16, 20-22, 24, 25, 27, 31, 32, 34, and 35 read on figures 1-2c. Accordingly, in order to correct the previous election of species requirement, and to indicate the corresponding claims to figures 1-2c, the following new election of species requirement is respectfully submitted.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Figures 1-2c,

Species II: Figures 3-4c,

Species III: Figures 5-6c,

Species IV: Figures 7a-7b,

Species V: Figures 8-10,

Species VI: Figure 11,

Species VII: Figure 12,

Species VIII: Figures 13a-13c,

Species IX: Figures 14-17,

Species X: Figure 18,

Species XI: Figures 19-20,

Art Unit: 3763

Species XII: Figures 21a-22b,

Species XIII: Figures 22a-22b, and

Species XIV: Figures 23a-23b.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims disclosed is considered to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 3763

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
